<b>Management expense ratio (MER)</b>	N/A*	<b>Minimum investment</b>	\$500 initial, \$50 additional

\* This information is not available because this is a new series

### What does this Fund invest in?

The Fund invests primarily in a diversified portfolio of equities and fixed income securities. The Fund may also invest in other investment funds. Securities are selected based on their ESG characteristics or sustainable investment strategies used. The Fund has an established long-term asset mix consistent with its stated objectives, which is adjusted depending on economic conditions and the relative value of asset classes in the Fund. The Fund also uses tactical asset allocation to take advantage of current and expected future market conditions.

The charts below give you a snapshot of the Fund’s investments on July 31, 2022. The Fund’s investments will change.

#### Top 10 investments on July 31, 2022

This information is not available because the Fund is a new mutual fund.

#### Investment mix on July 31, 2022

This information is not available because the Fund is a new mutual fund.

### How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much the Fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

HSBC Global Asset Management (Canada) Limited has rated the volatility of this Fund as **low to medium**. Because this is a new fund, the risk rating is only an estimate by HSBC Global Asset Management (Canada) Limited. Generally, the rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

low	<b>low to medium</b>	medium	medium to high	high
-----	----------------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the Fund’s returns, see the **What is a mutual fund and what are the risks of investing in a mutual fund?** section of the Fund’s simplified prospectus.

### No guarantees

Like most mutual funds, this Fund doesn’t have any guarantees. You may not get back the amount of money you invest.

### How has the Fund performed?

This section tells you how the D Series of the Fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the Fund’s returns.

#### Year-by-year returns

This information is not available because this is a new mutual fund.

#### Best and worst 3-month returns

This information is not available because this is a new mutual fund.

#### Average return

This section shows the value and annual compounded rate of return of a hypothetical \$1,000 investment in the D Series units of the Fund. However, this information is not available because the Fund is new.

### Who is this Fund for?

This Fund might be suitable for investors who:

- want to earn income
- want to grow capital
- have a medium investment time horizon
- have a low to medium tolerance for risk

**!** It is not suitable for investors with a low tolerance for risk or a short investment time horizon.

### A word about tax

In general, you pay tax on your share of the Fund's taxable earnings and capital gains you realize from redeeming your investment. The amount of tax depends on the tax rates that apply to you, and the type of earnings realized by the Fund (e.g. interest, dividends, capital gains, etc.) and whether or not you hold your investment within a registered plan, such as a Registered Retirement Savings Plan or Tax Free Savings Account. Keep in mind that if you hold your investment outside of a registered plan, you will receive a tax slip that shows your share of the Fund's earnings. You must report your share of the taxable earnings in your taxable income, whether you receive them in cash or have them reinvested.

Any tax slips you receive will show the amounts in Canadian dollars. In addition, you must calculate your taxable capital gains realized on redemption. When you redeem units of a U.S. dollar denominated Fund or series, the book cost of purchases and proceeds are also reported in Canadian dollars and may result in reported capital gains or losses from a change in the value of the Fund units and a change in the value of the U.S. dollar relative to the Canadian dollar.

### How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell units of the D Series of the Fund. The fees and expenses — including any commissions — can vary among the series of the Fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

The Fund has different series. The fees and expenses are different for each series. You should ask about other series that may be suitable for you.

#### 1. Sales charges

No sales charges apply to the D Series units of the Fund.

#### 2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the Fund's return.

The Fund's expenses are made up of the management fee, operating expenses and trading costs. The annual management fee for the D Series of the Fund is 0.80% of the Fund's value. As the D Series of the Fund is new, its operating expenses and trading costs are not yet available.

#### 3. More about the trailing commission

HSBC Global Asset Management (Canada) Limited does not pay your representative a trailing commission for the D Series units you own of the Fund.

#### 4. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the Fund.

Fee	What you pay
Short-term trading fee	The Fund may charge you up to 2% of the value of the units of a Fund when you switch or sell your units within 30 days of the date you purchased those units. For the purposes of determining whether the fee applies, we will consider the units that were held the longest to be the securities which are redeemed first.
Switch fee	Your representative may charge you up to 2% of the value of units you purchase when you switch your units to another fund, or to another series of the same Fund.

### What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory. For more information, see the securities law of your province or territory or ask a lawyer.
